Jose,

The edited version in first paragraph does not make sense to me. The prior deleted version does.

Mark

Hi all. Some minor edits came back from IOAA comms. If you have any objections plz let me know. We are still working on the quote.

Best,

Jose

**Subject:** RE: State stories on PFAS

Hi all. Had a good chat with Andy.

Culling through emails I found the draft story from Jody Shoemaker on Wyoming, OH (and now I remember that Wyoming is a city in question not the state!)

I will put together a draft NH story based on the slide and additional information from Andy.

Final question is whether there are any updates to the North Carolina story (attached). Please let me know ASAP.

Best,

jose

José,

Please give me a call at 919-541-0551 when you get a chance and I'll be happy to give you an outline (as best I know) of each of these investigations.

Thank you,

Andy

Hi Andrew.

Since Mark is out would you be willing to put together rough drafts of these stories. Then I can take it from there.

Best,

jose

Jose,

In a nut shell, we have ongoing work in support of the following states/regions:

1. R4/NC – Fayetteville Chemours site (expanded to include air and rain water)
2. R1/NH – Saint-Gobain Performance Plastics, Merrimack
3. R2/ NJ – DuPont / Solvay sites

We are gearing up to provide support:

4. R3/WV
5. OECA/R6/TX
6. R5/MN & MI – Electroplating mist suppression

I have attached documentation on each of these activities. I am also copying Emily Smith as she will have desk statements for some of these activities that may be helpful in preparing stories.

**Importance:** High

Hello again (!)

IOAA would also like a story on the NH support work.

So folks:

- 1) By Friday need any updates to NERL's PFAS stories from last year
- 2) By next Wednesday need drafts for new NERL PFAS state stories: WY, OH, NH at the least and any others.

Please let me know if you have any questions.

Best,

Jose

**Importance:** High

Adding Andrew.

Also – there was a request for the PFAS WY and OH stories back in May but I don't I ever received drafts. Attaching the original communique.

IOAA really wants these PFAS stories for the compilation so please send along the drafts.

Best,

Jose

Hi guys.

In prep for the upcoming ORD/state meetings, we are reviewing prior stories to see if there are any updates needed, and adding new stories.

Can you folks:

- 1) Let me know if any updates are needed to last year's stories (DUE this FRIDAY)
- 2) Let me know if you anticipate adding another story (let me know by FRIDAY, but the draft isn't due until June 20).

Attached are the old PFAS stories and the template for new stories.

Thanks,

Jose
